CONCERN BUSINESSES

The Companies of Gtech Group

As part of its long-term growth strategy, Gtech Group has established and invested in multiple businesses across aviation, engineering, renewable energy, infrastructure, technology, healthcare, hospitality, and strategic investments. Together, these companies form an integrated business ecosystem that drives innovation, sustainable growth, and value creation.

Among our diversified portfolio, the following companies represent the Group's key business pillars and growth drivers:

Engineering, Energy & Infrastructure Solutions

Gtech Solution Limited is the flagship and engineering powerhouse of GTECH Group — a leading multidisciplinary company established in 2016, specializing in solar power engineering, EPC contracts, civil construction, dredging, roads, highways, railways & bridges, and medical equipment supply. We deliver complete, end-to-end solar solutions — project consultancy & feasibility studies, engineering design, EPC (Engineering, Procurement & Construction), performance analytics, remote monitoring and O&M.

With **7,000+ kWp** of solar installed, GTECH has executed landmark EPC and IPP projects — including the 50 MW RPCL project (Madarganj, Jamalpur), the 35 MWp Spectra Solar Power Plant (Manikganj) and the 50 MWp Mymensingh Solar Power Plant — alongside iconic rooftop systems at Aptech Industrial Park (1,500 kWp), Karim Spinning Mills (1,287 kWp) and Habitus Fashion (1,147 kWp). Together these have saved 2 GWh of energy, mitigated 15,670+ tonnes of CO₂ and benefited 12,540+ people. The vertical unites Gtech Solar, Gtech LED, Allied Solar Energy, Vincen Gtech, DUPNO International & MNS Technology.

Infrastructure, Construction & Development

A pioneer in industrial clean energy, civil construction and large-scale project development — delivering EPC, ground-mounted & utility-scale solar plants, roads, highways, railways & bridges, dredging, embankment and land development across Bangladesh.

From site survey, geotechnical investigation and design to construction, steel-structure fabrication, substations and full project execution — the vertical is strengthened by Green Rock Corporation (stone & construction materials) and Nokshi Holdings Ltd (real-estate & strategic assets), giving end-to-end control from raw materials to finished infrastructure.

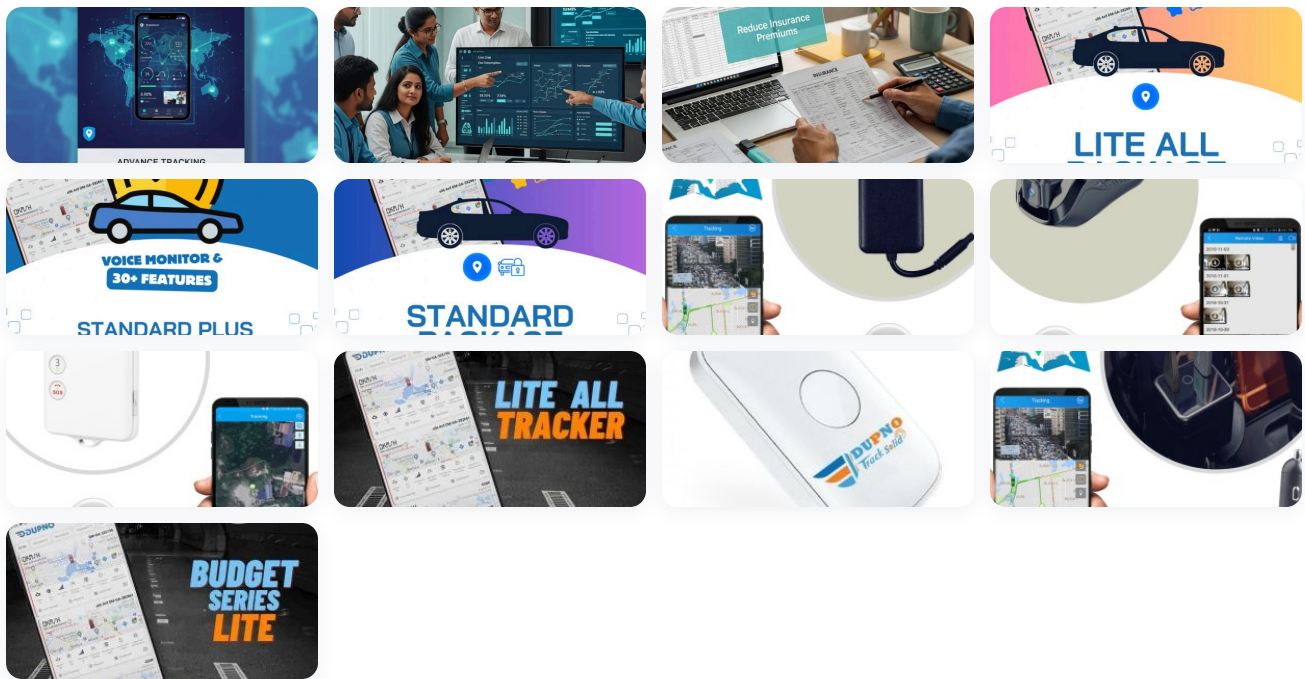

GPS Tracking & Digital Services

DUPNO International Limited · A Concern of GTECH Group Limited

The group's digital services and technology venture — GPS vehicle tracking, fleet management, software, and connected digital solutions that help businesses cut costs, improve efficiency, and stay in control in real time.

From private cars and motorcycles to full corporate fleets, DUPNO's BTRC-approved tracking platform delivers live location, engine on/off control, geo-fencing, route history, and fuel & driver-behaviour insights — all through easy-to-use mobile and web apps. Businesses rely on DUPNO to protect their vehicles, reduce operating costs, and make smarter decisions with real-time data, backed by nationwide support and affordable service packages for every budget.

Beyond vehicle tracking, DUPNO offers a complete telematics product line — OBD plug-and-play trackers, dash cameras with live video tracking, temperature monitoring for cold-chain transport, and field-force ID tracking for workforce management. As a BTRC-approved service provider and a member of the Vehicle Tracking Service Providers Association of Bangladesh (VTSPAB), DUPNO serves individuals and leading corporate houses alike with reliable, secure, and scalable tracking technology.

OUR CLIENTS & PARTNERS

A Connected Network of Trust

From government bodies and leading corporate houses in Bangladesh to world-class technology and solar manufacturers across the globe — every name here is a trusted client or partner of the companies under Gtech Group, connected by one shared vision. And this is only a glimpse: our network reaches far beyond these names, growing stronger every day.

OUR MAIN FOCUS

About Gtech Aviation

The aviation, healthcare & education services arm of Gtech Group — our company overview, services, partners, and performance at a glance.

Aviation, Healthcare & Education Services

Gtech Aviation Ltd. • A Concern of GTECH Group Limited

GTECH Aviation Ltd. is a leading travel, medical tourism, education, and global mobility company in Bangladesh — providing visa services, flight support, travel packages, ticketing services, pilgrimage tours, destination management, and aviation support solutions.

With 65+ partner hospitals, 48+ international educational institutions, 84+ global travel partners, and 20+ local & multinational corporate partners, GTECH Aviation delivers medical tourism, overseas education, workforce mobility, corporate travel, and international travel solutions worldwide — and is an Authorized Agent of the Bangladesh Cricket Board (BCB).

GTECH AVIATION

Our Travel & Tourism Partners

Gtech Aviation Ltd. works with a trusted network of local and global travel, tourism and healthcare partners — from Bangladesh to South Asia, China and beyond — delivering medical tourism, travel and destination services worldwide.

Step by step, we are expanding our footsteps onto the global stage, connecting with more partners every day.

LEADING THE WAY

Our Leadership Hierarchy

A clearly defined organizational structure — from the Board and executive leadership to every department and team member — guiding everything we do under one shared vision.

Mostafa Al Mahmud
Chairman & Founder

Bringing more than 20 years of experience, he stands as a dynamic leader in the industry. His approach combines vision, discipline, and ethical leadership to ensure continuous organizational growth. Under his guidance, the company is focused on excellence, innovation, and building a strong legacy for the future.

Mohammed Tanveer Ahmed
Managing Director

A highly experienced professional in the aviation sector with over 10 years of expertise, he has developed strong capabilities in operational excellence, service innovation, and business development. His journey includes direct involvement in aviation operations, service management, and cross-functional leadership, contributing to improved efficiency and enhanced service delivery standards. He leads with a forward-thinking approach, focusing on technology integration, modern aviation practices, and customer-centric strategies for sustainable growth and long-term value creation.

Jamil Ahmed
Director

With over 12 years of experience across multiple business sectors, he has been instrumental in driving organizational growth, operational efficiency, and strategic development. He brings strong expertise in business process management, organizational structuring, and sustainable expansion across diversified operations. His leadership focuses on disciplined execution, innovation, and long-term value creation, ensuring continuous improvement and alignment with modern business practices and global standards.

Md Mukhlesur Rahman
Chief Executive Officer

Bringing over 35 years of distinguished experience in the aviation industry, he stands as a visionary leader with a proven track record in operational excellence, strategic transformation, and sustainable organizational growth. His career spans airport operations, airline services, regulatory frameworks, and large-scale aviation infrastructure across domestic and international markets. Actively involved with globally recognized aviation hubs, he aligns organizational practices with world-class benchmarks — guiding the organization with precision, discipline, and long-term strategic planning.

GTECH AVIATION

Aviation Opportunity & Strategy

The market opportunity in Bangladesh and beyond — why we entered aviation, why we are capable, and the vision and mission guiding us.

Aviation Market: Bangladesh

One of the fastest-growing aviation markets in South Asia, driven by strong economic expansion and global trade integration.

- ✓ Rapid growth in passenger travel (domestic + international)
- ✓ Strong export-driven air cargo demand (garments, pharma, agro)
- ✓ Strategic location between Asia, Middle East & Europe
- ✓ Ongoing airport modernization and infrastructure expansion
- ✓ Rising demand for professional aviation support services

👉 **Bangladesh is evolving into a regional aviation and logistics hub.**

Global High-Growth Aviation Markets

Globally, aviation is one of the fastest-recovering and expanding industries.

- ✓ **Middle East** — Dubai, Qatar & Saudi hubs leading global connectivity
- ✓ **Southeast Asia** — Singapore, Malaysia & Vietnam as logistics centers
- ✓ **South Asia** — India & Bangladesh showing strong expansion
- ✓ **Africa** — Rapid growth in infrastructure and new airlines
- ✓ **Europe & USA** — Aviation technology, automation & efficiency

👉 **Global aviation is shifting toward integrated, technology-driven ecosystems.**

Why We Are Interested in the Aviation Sector

We are highly interested in the aviation sector because it is one of the most critical drivers of modern economic growth, global connectivity, and international trade. Aviation is not just a transport industry — it is a strategic ecosystem that connects people, businesses, and nations.

Bangladesh is currently experiencing rapid growth in air travel, cargo movement, and infrastructure development, but the sector still lacks fully integrated, modern, and technology-driven service providers. This creates a strong opportunity for us to contribute with our experience in engineering, infrastructure development, logistics, and large-scale project execution.

Our interest is based on:

- ✓ Strong market growth and long-term demand potential
- ✓ National importance in trade, logistics, and connectivity
- ✓ Gap in integrated aviation service providers in Bangladesh
- ✓ Opportunity to apply our existing expertise in infrastructure and operations
- ✓ Alignment with global aviation transformation trends

Community Impact & Value Creation

Aviation development creates strong social and economic impact beyond business growth.

- ✓ Job creation in aviation, logistics & technical sectors
- ✓ Skill development and aviation training opportunities
- ✓ Improved connectivity between cities and regions
- ✓ Stronger export efficiency for industries and farmers
- ✓ Emergency medical and cargo support systems
- ✓ Technology-driven safety and operational efficiency

👉 **Aviation is a national development engine, not just a business sector.**

Our Positioning — Gtech Aviation

Gtech Aviation is being developed as a modern aviation ecosystem from Bangladesh.

- ✓ Airline representation & coordination
- ✓ Ground handling support services
- ✓ Cargo & logistics management
- ✓ Aviation consultancy & operations support
- ✓ Technology-driven aviation systems

👉 **Our goal is to build a scalable and integrated aviation service platform.**

Why We Are Capable

We are not new to large-scale operations.

- ✓ Proven execution in EPC, infrastructure & energy projects
- ✓ Experience in government, private & international projects
- ✓ Strong operational coordination across multiple industries
- ✓ Skilled engineering, logistics & management teams

👉 **We already operate in complex, high-value project environments.**

Why Trust Us

- ✓ Transparent project execution and management systems
- ✓ Strong focus on safety, quality, and compliance
- ✓ On-time delivery with professional operational control
- ✓ Long-term partnership mindset, not short-term contracts

👉 **We build trust through performance, not promises.**

Our Vision

To become a leading aviation and infrastructure-driven business group from Bangladesh, connecting global markets through technology, logistics, and aviation services.

Our Mission

- ✓ Build efficient aviation support systems
- ✓ Develop technology-driven operations
- ✓ Strengthen logistics and cargo networks
- ✓ Support national infrastructure growth
- ✓ Connect Bangladesh to global aviation systems

LOOKING AHEAD

Future Roadmap

A phased journey — strengthening today's services while building tomorrow's aviation ecosystem.

2026 – 2028

- ✓ Expand Medical Tourism
- ✓ International Education Network
- ✓ Aviation Support Services

👉 **Deepening our core travel, healthcare & education services.**

2028 – 2030

- ✓ Cargo & Logistics
- ✓ Ground Handling
- ✓ Airline Representation

👉 **Scaling into a full aviation services ecosystem.**

From Bangladesh to Global Markets

We are building a future where aviation becomes more connected, efficient, and technology-driven.

Let's Build the Future Together

Whether you're a partner, client, or future team member — the Gtech Group team would love to hear from you.
